Bernard and Anne Spitzer
School of Architecture

1983-2008, 2010-2011, 2013
Adjunct Professor,
Columbia University GSAPP
Dept. of Historic Preservation

1999
Adjunct Professor of Design,
Hampshire College

Harry Kendall's diverse experience ranges from the theoretical to the technical, with a fundamental dedication to the intricate stories of the built environment. He believes that architecture of all styles, scales, and geographies has the potential to provide long-lasting value to project stakeholders and society. Consequently, Harry's keen interest in the tools and techniques of the creative process are rivaled only by his passion for facilitating the creation and preservation of holistically high quality architecture.

As lead partner in business development efforts, Harry is deeply invested in the firm's diverse client and collaborator relationships, but brings equal enthusiasm to the design process. Sometimes acting as a roving critic, other times as an expert advisor, Harry's insights are ingrained in most BSKS projects. In particular, Harry's extensive knowledge of New York's building regulations often results in him serving as a key contributor on projects with complex approval processes. He is a shrewd assessor of a building's appropriateness, within its immediate contexts as well as along the continuum of architectural history.

Both inside the office and out, Harry is actively engaged in New York's urban fabric. A former resident of Tribeca, Harry serves on the Board of Directors for the Church Street School for Music and Art. He is also on the Advisory Board of Historic Hudson, which advocates for the preservation of historic architecture in the city of Hudson, New York. Initially in the founding class of Hampshire College, Harry went on to earn a Bachelor of Arts in Architecture from Washington University in St. Louis, which has since honored him as a Distinguished Alumnus. In addition, Harry earned a Master of Architecture from Columbia University, where he served as an adjunct professor, with a focus on classic architecture.

SELECTED PROJECT EXPERIENCE

Gansevoort Street Row, Gansevoort Market Historical District, NYC | Tammany Hall, Union Square, NYC | 22 Bond Street, Noho, NYC | 124 Hudson Street, Tribeca, NYC | Fischer Mills, Tribeca, NYC | Duane Park Building, Tribeca, NYC | Church Street School, Tribeca, NYC | The American Academy in Rome, Upper East Side, NYC
